“ *To: The best dad in the world  
I can't really pick a favorite memory with you. All the long night we had riding around like, the time we was riding around on the 4wheeler and it ran out of gas and we had to want back home to get the truck and more fuel. Or the times we used to get up early and go get wood to keep us warm the point is I don't have a favorite memory but I'm beyond grateful for the father and dad you were and the man you helped me become, I love youu dad it's not a goodbye it's a see you later I'll forever tell stories of you to your grandkids. See you later I'll keep a cold one for you*

“ *To my uncle you were one of the few men in my life who I will stay forever grateful for with everything you have taught me and showed me. all of our late night talks by a fire or just us staying up and listening to music. I will cherish those memories and moments for a life time. You will forever be missed eddy boy and forever loved by so many and don't worry I'll always keep a cold one for you. L.L.T*

“ We weren’t related by blood but by marriage and even though that was the case it never felt that way you and the boys became our family from the day we met I still remember everything my best memories are with papa Tate I never called you dad maybe a few times when we were younger but that’s what you were you were to me an amazing dad and you were my absolute best friend, I’ll miss all your home cooking and all our late night chats with everyone, every ride, every store trip, we will just miss you in general, you were an incredible person you got taken from us way too soon but I promise we will live out your memories just how you would’ve wanted papa Tate! It’s forever LONG LIVE TATER ☐ I love you forever and always...
