“ *Dad is a good story teller. Dad would tell stories of his childhood. Sit
for hours listening to him telling stories about his childhood & how it
was compared to this day in time. Told me once he could go to the
movies & get a coke & a hamburger for a quarter. Still have change
leftover. That is amazing. To me you are & always will be
remembered has a man with a heart of gold. I Will cherish our
memories forever. Love you Dad*
