“ Although I hadn't seen Paul in 30 years, I will never forget the day in high school when I learned that Paul and I were "going steady" with the same girl - at the same time. It was natural, when we learned that, to become best friends.

What a fine family - the Nassours - and while in school, his mother was my like my 2nd mother - a wonderful woman.

“ *What fun we had at Hutcheson with all the joy of taking care of the people we loved in North Georgia! Paul's devotion to his work and the people he served was apparent. He loved what he did and always had a comparative story of how it had been in the old days, even as far back as what his dad had done. God gave us some great memories with where we have been as well as a clear expectation for our future. May Judi and the whole family be comforted with the great loving memories of our past with Paul and with hope for the future in the compassions and mercies of Christ.*

“ *I met him years ago through James Creel and Bob Gammon when they started the EMS program and have seen him when we had family emergencies that brought us to Hutcheson for treatment and he was always the attending physician. He always had a smile on his face and a big hug. I will truly miss this man, his compassion he had for people was remarkable. I loved him as a friend and a doctor. Paul no one will ever be able to replace you, you are one of a kind.*

“ I'm one of the first group of medics that DR. Nassour trained. I can't say enough about how much he has influenced my life. I have so many stories about him. I think every time anyone in No. Georgia calls an Ambulance and receives expert care, they should thank DR Nassour. I haven't seen him much in the last twenty years but when I did, he would always say My number's in the book call me and we'll have a Beer. I got to have a Beer with him at the HMC reunion. I'll miss you my friend, RIP.

“Nasty taught me to be an ER nurse at Hutcheson in the 1980s. Several years later while traveling through Calhoun, GA. I experienced a sudden illness that took me to the local ER. I was never more thrilled to see a familiar, smiling face than I was to see his on that day. He treated me in his usual, kind, compassionate, intelligent way. I will never forget that. May God Bless the family & give them peace at this difficult time.

“When my wife, Ann Nassour, first introduced me to her brother-in-law Paul, he and I instantly became good friends and golfing buddies. For the next 22 years whenever he came to Austin, almost every day Paul and I would be at a different golf course until sunset - more than 50 by my count, and hardly ever the same place twice. When we finally made it back home, we would always enjoy grandma Hoda’s fabulous cooking, drinking coffee, and playing canasta until after midnight.

Even though he was only four years older than me, Paul was very fond of saying “when you get to be as old as I am – you won’t be able to hit the golf ball as far.”

Paul Nassour, and indeed all of the Nassour family, always took me at face value and always treated me as one of their own. No one could ever ask for anything more than to be loved and welcomed into this family.

We will never forget his smiling face, his infectious laughter and his kind gentle soul. Until we tee it up again, without you Paul – there will always be a hole in my heart.

Dear Beloved Paul, your pain is of this world no more. Go with God and rest in peace – my best friend, and, my brother.

“ Dr. Nassour, "Nasty"

You are a legend. You touched so many lives, made memories for so many people, and left your footprints in the sand.

I enjoyed the 12 years we worked together. Your heart was filled with kindness, care and concern for all your patients, and staff. Thank you for all the years you gave so much of yourself to so many.

You will live in the hearts of a great number of people, and will be sorely missed.

For family, hold onto each other. Remember all the great times you all had with him. Know that he loved you all, as you all loved him. Lastly, know that he is watching over you.

“ Paul saved my life in 2010. I met Paul in in the late seventies, while working for Hutcheson's E.M.S. It didn't take long to realize what a great (and funny!) man he was. In 2010, I had to go to the e.r. with a kidney stone; they said I needed a colonoscopy, because my x ray showed a thickening of my colon, but I had no insurance, so I went home, pretty well forgetting about any tests. I hadn't been home 10 minutes, when Dr. Nassour called me; he said he had come to work after I had left, saw my chart, and thought what's he here for? Paul told me it looked like a mass in my colon, and that I needed some tests. I told him "no insurance!". He told me to come right back, and he would get me admitted, find out what it was. It was an advanced stage 3 colon cancer. They operated the next day, it was pretty bad. I would not have lived till Christmas, if not for Dr. Nassour. When I went back to thank him, he just grinned and said, "that's what friends are for". He was one of the most humble, lovable people I've ever met. He will be missed so badly-

“ No words can express the sadness I feel about hearing the loss of Paul. I had know him for the past 33 years and although our paths had not crossed much in the past several years, I heard updates on him through mutual friends. There was no sweeter individual, willingly to help the next person, on this earth. He really met his calling when he became an ER doctor....his true love. Favorite memory, spending time with him as he worked on his golf shot on the "back nine" behind Select Med in between patients and my dad coming up and just hanging out with him talking about anything and everything. “ I've worked with Dr. Nassour for many years. He was one of the finest men I know. He reminded me a lot of my dad. Everyday I worked with him Id always tell him I loved him. My girls would go with me every Thursday to get my checks. They would be looking for his car before I ever turned in to the parking lot. He would always give them hugs and kisses as well as candy. They looked forward to seeing his sweet face each Thursday. They once told him they loved him because he was "brown" like them. The next day at work we were laughing about it. He pulled up a pants leg and laughed. He said I'm just as white as you if they only knew. We both laughed and I told him to never tell them for it was their brown skin that bonded them. How we are all going to miss that man is unbearable to think of. Judi, I love you. I am praying for peace and comfort for you and your family during this difficult time. You have a huge support system and if you need me I'm only a message away. May God wrap his loving arms around you all.
