“ my memory of Bob goes back to 1974 when my brother, Bill Shields, and I rode to work with Bob and another electrician, Mr. Holcomb. We all worked at Sequoyah on construction and had quite a good car pool. Bob was always the "spark plug" of conversation and was a really interesting and great man. He really cared for his fellow workers and upheld the better objectives of the union. He was a respected electrician and was a safe and dependable worker. I also worked in 1970 with his step father, Vernon Pearson, at U S Pipe. Vernon was a good friend to me and helped me as a younger worker to "know the ropes". To the Foster family.....you are great because of Bob and his wonderful life and outlook toward life and others. I really thank God for knowing him. May God bless all of you.
