“ *I have many memories of Tracy from working with her at the Capital Part Department, but one of my favorites was of her always having a few extra pennies in her desk to make sure that my monies always were exact, and when I was over she would place them in an envelope and tape them to the board for all to see, she just loved those pennies. You were not the easiest person to work with, but you were the same with all of us, and you will be missed. Tracy did love her Grandchildren, and when they came for a visit they provided another side of her, So many memories.*

“ *I met Tracy the first day I started at Toyota in 2016. Although we had some rough days together we got through them. Tracy always had me laughing when I was going through hard times in my life. She was a strong soul with a big heart and she taught me a lot not just about the dealership, but life it's self. She was a very giving person. Boy did she love her grandbabies, talked about them all the time. I'm so thankful for the memories I shared with her even the texts just last week. Tracy you will forever be missed!!! Save me a seat in heaven and try to stay out of trouble lol love u Tracy! P.S sorry we never got to grill out.*

“ When we move here from New Mexico, I was so happy to meet Tracy. She was a very original down to earth person. it was such a relief to meet such a sweet kind wonderful human being. Even if I could not understand her sometimes she would repeat it like I just spoke a different language. I know that she was a very diligent worker and my husband could not have done his job without her. She did everything and she knew everything. Tracy will be very much missed by all however, I have a feeling I will see her again. Love you Tracy.
